

Gage Mariano

Junior Computer Science Major at Texas A&M

Enthusiastic and dedicated student who is excited to begin working hands-on and gain concrete experience in the field of computer science. Great aptitude and drive for learning new skills; I especially enjoy tackling problems that are unconventional and/or require comprehensive understanding of a subject.

Skills

Python	<div><div></div><div></div><div></div><div></div><div></div></div> <div>Excellent</div>
C++	<div><div></div><div></div><div></div><div></div><div></div></div> <div>Excellent</div>
Java	<div><div></div><div></div><div></div></div> <div>Good</div>
Scheme (LISP)	<div><div></div><div></div><div></div><div></div></div> <div>Very Good</div>
JavaFX	<div><div></div><div></div><div></div></div> <div>Good</div>
Unix	<div><div></div><div></div><div></div></div> <div>Good</div>
HTML	<div><div></div><div></div></div> <div>Average</div>
CSS	<div><div></div><div></div><div></div></div> <div>Good</div>

Projects

Just In Time

HowdyHack 2022

A project aimed at optimizing the daily routes student's take around campus. Planned, designed, and implemented in twenty-four hours.

Utilized:

- C++
- URL Requests
- Shortest Path Algorithms

- Python
- Google Maps API
- Tkinter

Financial Planner

TAMUHack 2022

A financial planner designed with students in mind, breaking down costs categorically to better understand overall spending. Although the project itself is not astounding, it is a testament to my ability to quickly intake and apply information in a time constrained situation.

Utilized:

- HTML
- Python Backend (Flask)

- CSS

Education

2021-08 –	Bachelor of Science - Computer Science
Current	Texas A&M University College Station, Texas
	Current Member of Engineering Honors
	Current 4.0 GPA
	Multiple Recipient of "Dean's Honor Roll"
